

LIVING WITH A DIABETIC FOOT ULCER?

Clinical Trial Now Enrolling!

This study will evaluate the safety and performance of an FDA-cleared wearable medical device that improves circulation and may reduce wound healing time.

You may qualify, if you:

- Are 18 years or older
- Have a non-healing diabetic wound on the foot
- The wound/ulcer has been present for at least 4 weeks

****No insurance coverage required***

Qualified, enrolled participants may receive:

- Weekly wound care at no cost
- An FDA-cleared wearable device
- Stipend for time and travel
